

Fish Field Guide Review

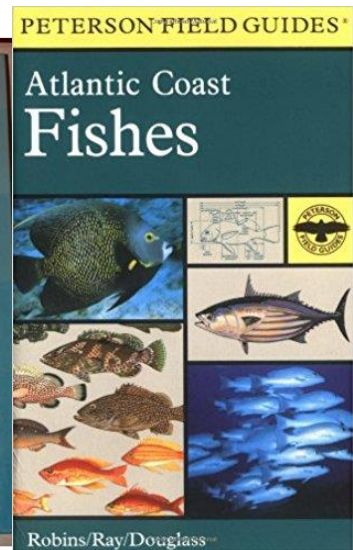

Highly recommended – over 1,000 species, plates mostly in color, a few minnow series are black and white, good maps and identification comments. \$15-20.

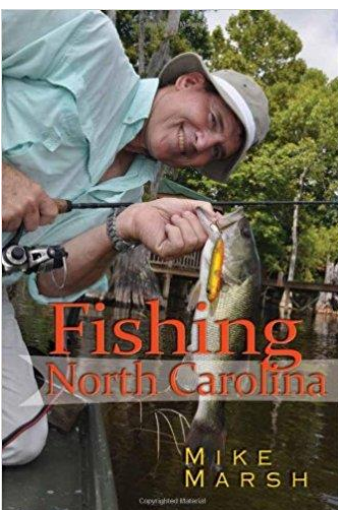

Highly recommended: great guide to common species of North Carolina, color photos, excellent range maps. \$20-25.

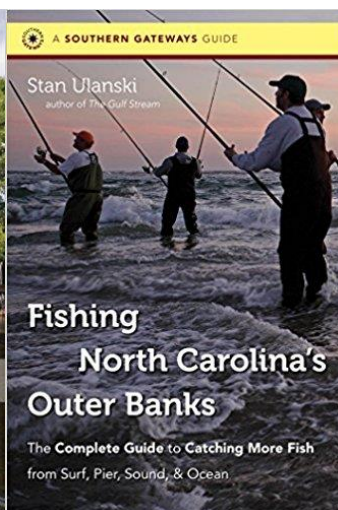

Highly recommended: more technical, but has great line drawings and decent dot maps. \$30.

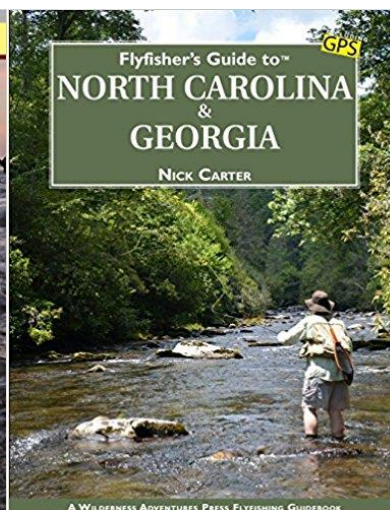

Highly recommended: excellent guide. \$33+.

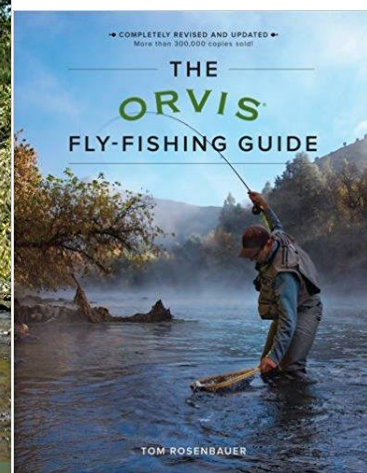

Nice generic guide with concise and accurate information about major waterways of NC. \$20-25.

Nice approach to some common species, good detail and some natural history and science behind the catching. \$15-20.

Precise locations and specific descriptions of large and small rivers, coffee table worthy. \$25-30.

The complete how to on all things fly fishing. \$15-20.
